

Dean's Message for March, 2018

During intermission of the outstanding organ and orchestra concert by organist Craig Williams at Venice Presbyterian Church a few weeks ago, I once again was reminded how blessed we are to live in an area with so many occasions to attend high quality musical performances. Having lived most of my life in West Central Ohio where attending any major organ or choral event required a minimum drive of 60 miles, the proximity of so many area opportunities to experience and enjoy is sometimes overwhelming.

Just take a look at the community events listed on our website and in our newsletter for March. I count sixteen! And then there are all the other events sponsored by area cultural organizations. Obviously, we can't attend everything, but there certainly are some that we could/should put on our calendars.

So, in addition to attending the three Chapter programs scheduled for March, I encourage you to review the event listings and put two or three on your calendar. Don't miss the chance to hear some "old" favorites or experience something new!

Dwane Grace, Dean
