

## Monday, Dean's Message for May, 2018

My last Dean's column! The past two years have certainly been a busy and a rewarding experience!

As we celebrated our 60th anniversary, it has been interesting to go through the archives and read about the struggles and the accomplishments of our chapter's early years.

The success and longevity of an organization such as ours relies totally on the efforts and dedication of volunteers. And I have been blessed with working with a group of members that always had the best interests of our members and our chapter as the focus of our planning and programming. Thanks to all for your time and hard work!

We close the year with our annual banquet and installation service on Monday, May 7th. Hope to see you there!

**Dwane Grace, Dean**
